

### Installing 72349 & 72353 LALIZAS Lifejacket LED Flashing Light “Safelite IV” on ISO & SOLAS Foam Lifejackets

#### 1. Fitted on the lifejacket webbing

**Step 1**

Place the black clip under the upper/chest or the waist webbing on the side where the buckle is steady. If upper webbing is available, it is preferable, since it offers higher position above sea level.

**Step 2**

Angle the light and press it down to lock the two pieces together.

**Step 3**

Ensure the light is securely attached and cannot be removed by pulling.

#### Installation on Lifejacket Compact Mini, SOLAS/MED

Special webbing loop for placing LALIZAS Lifejacket LED Flashing Lights 72349 and 72353.

The installation process on this webbing is the same as for “1. Fitted on the lifejacket webbing”.

### 2. Recessed on the lifejacket

#### Equipment

LALIZAS Hole Puncher for Lifejacket Flashing Lights 72348-9 & 72353, Int. Ø34mm, Ext. (product code 71215)

LALIZAS Base for Lifejacket Flashing Light 72349 & 72353 (product code 71214)

#### Step 1

Use a LALIZAS Hole Puncher (71215) to make a hole at a specific spot on the foam lifejacket.

#### Step 2

Remove the foam from the cut area.

#### Step 3

Place the LALIZAS Base for Lifejacket Flashing Light 72349 & 72353 (product code 71214) into the hole.

#### Step 4

Place the LALIZAS Lifejacket LED Flashing Light "Safelite IV" into the base.
